

“THIS IS WHO I AM” – LESBIAN COMING OUT EXPERIENCES AND BARRIERS TO ACCEPTANCE - Presentation of a Scottish lesbian study with the authors

Sunday | 23.06.2024 | 10.00 a.m. (Zoom - Matinee)

Last year, the two Scottish researchers Dr. Lorraine Douglas and Jenny Willmott conducted a study on lesbian coming out experiences and lesbian life. They reported on it last November at WDI UK. This is a real ray of hope in view of the increasingly scarce research on the lives and experiences of lesbians!

Now, thanks to Sabine Schneider of Lesbian Resistance NZ (LBORI member), the study has been translated into German and will soon be available on our website under “Publications/Lesbian Testimonies”.

We are delighted to welcome Dr. Lorraine Douglas and Jenny Willmott as our guests. They will give explanations on important points of their study and will be available to answer your questions.

The event is bilingual (German-English) and will be kindly interpreted by our member Margaret Diehl and our translator Sabine Schneider. Due to the time difference between Europe and New Zealand, we will offer a matinee event.

We look forward seeing you
